3 Purpose

The purpose of this Act is to modernise the law governing the conduct of local elections and polls and, in doing this, to—

 - (i) the timing of local elections; and
 - (ii) the right of individuals to vote, stand for election, and nominate candidates for election; and
 - (iii) the appointment, powers, and duties of electoral officers and other electoral officials; and

 - (vi) offences against this Act and penalties for those offences; and
 - (vii) disputed elections; and
 - (viii) electoral expenses; and
 - (ix) extraordinary vacancies; and
- (c) allow diversity (through local decision-making) in relation to—
 - (i) the particular electoral system to be used for local elections and polls; and

 - (ii) the particular voting method to be used for local elections and polls; and

- (4) If the description of any ward or constituency or community or subdivision to which subsection (3) applies is defective, but the Surveyor-General, or a person appointed by the Surveyor-General, certifies that it can be amended and the defect overcome without making any change in what was evidently intended to be the area comprised in the description, the description—

 - (b) if so amended, has effect as if the provisions of subsection (3) had been complied with.

- (2) Every application for a recount must be accompanied by the prescribed deposit.

[Repealed]

Schedule 1: repealed, on 7 July 2004, by section 18 of the Local Electoral Amendment Act 2004 (2004 No 62).

Schedule 1A
Provisions relating to Māori wards and
Māori constituencies

s 19ZH

Schedule 1A: inserted, on 25 December 2002, by section 49 of the Local Electoral Amendment Act 2002 (2002 No 85).

1 Review of representation arrangements for election of territorial authority

- (1) If, for the purposes of a triennial general election, a district of a territorial authority (being a district that is not already divided into 1 or more Māori wards) is required to be divided into 1 or more Māori wards, the territorial authority must, in the year immediately before the year in which the triennial general election is to be held, but not later than 31 August in the year immediately before the year in which the triennial general election is to be held, make a determination under section 19H.
- (2) That determination must be made as if the territorial authority were required by section 19H to determine by resolution, in accordance with Part 1A,—
 - (a) the proposed number of members of the territorial authority (other than the mayor); and
 - (b) whether—
 - (i) all of the proposed members of the territorial authority (other than the mayor) are to be separately elected by the electors of 1 or more Māori wards and the electors of 1 or more general wards; or
 - (ii) some of the proposed members of the territorial authority (other than the mayor) are to be elected by the electors of the district as a whole and some to be elected separately by the electors of 1 or more Māori wards and 1 or more general wards, and, if so, what number of members are to be elected by electors of the district as a whole, and what number are to be elected separately.
 - (c) the proposed number of members of the territorial authority to be elected by the electors of 1 or more Māori wards; and

- (d) the proposed number of members of the territorial authority to be elected by electors of 1 or more general wards; and
 - (e) the proposed name and the proposed boundaries of each ward; and
 - (f) the number of members proposed to be elected by the electors of each Māori ward; and
 - (g) the number of members proposed to be elected by the electors of each general ward.
- (3) This clause does not limit section 19B(1).
Compare: 2001 No 1 (L) s 5

2 Calculation of number of Māori and general ward members

- (1) The number of members to be elected by the electors of 1 or more Māori wards of the district of a territorial authority (**Māori ward members**) is to be determined in accordance with the following formula:

$$nmm = \frac{mepd}{mepd + gepd} \times nm$$

where—

nmm is the number of Māori ward members

$mepd$ is the Māori electoral population of the district

$gepd$ is the general electoral population of the district

nm is the proposed number of members of the territorial authority (other than the mayor).

- (2) If a determination is made under clause 1(2)(b)(ii), the definition of nm in the formula must be applied as if for the words “proposed number of members of the territorial authority (other than the mayor)” there were substituted the words “proposed number of members of the territorial authority (other than the mayor and the members to be elected by electors of the district as a whole)”.
- (3) If the number of the Māori ward members (other than the mayor) calculated under subclause (1) includes a fraction, the fraction must be disregarded unless it exceeds a half. If the fraction exceeds a half, the number of Māori ward members

must be the next whole number above the number that includes the fraction.

- (4) The number of members to be elected by the electors of 1 or more general wards is to be determined by subtracting from the proposed number of members of the territorial authority (other than the mayor, or, if the case requires, other than the mayor and the members of the territorial authority to be elected by electors of the district as a whole) the number of Māori ward members, as calculated under subclauses (1) and (3).
- (5) Despite Part 1A and the provisions of this schedule, if the number of Māori ward members, as determined in accordance with the method of calculation in this clause, is zero (because the number of Māori ward members as so determined is a fraction of the whole number 1 that does not exceed one half),—
 - (a) the district must not be divided into 1 or more Māori wards and 1 or more general wards;
 - (b) the provisions of clauses 1, 5, and 6 of this schedule must not be applied for the purposes of any determination under section 19H or section 19R.

Compare: 2001 No 1 (L) s 6

Schedule 1A clause 2(5): amended, on 28 June 2006, by section 5(1) of the Local Electoral Amendment Act 2006 (2006 No 25).

3 Review of representation arrangements for election of regional council

- (1) If, for the purposes of a triennial general election, a region of a regional council (being a region that is not already divided into 1 or more Māori constituencies) is required to be divided into 1 or more Māori constituencies, the regional council must, in the year immediately before the year in which the triennial general election is to be held, but not later than 31 August in the year immediately before the year in which the triennial general election is to be held, make a determination under section 19I.
- (2) That determination must be made as if the regional council were required by section 19I to determine by resolution, in accordance with Part 1A,—
 - (a) the proposed number of members of the regional council; and

- (b) the proposed number of members of the regional council to be elected by the electors of 1 or more Māori constituencies; and
- (c) the proposed number of members of the regional council to be elected by electors of 1 or more general constituencies; and
- (d) the proposed name and the proposed boundaries of each constituency; and
- (e) the number of members proposed to be elected by the electors of each Māori constituency; and
- (f) the number of members proposed to be elected by the electors of each general constituency.

Compare: 2001 No 1 (L) s 5

4 Calculation of number of Māori and general constituency members

- (1) The number of members to be elected by the electors of 1 or more Māori constituencies of a regional council (**Māori constituency members**) is to be determined in accordance with the following formula:

$$nmm = \frac{mepr}{mepr + gepr} \times nm$$

where—

nmm is the number of Māori constituency members

$mepr$ is the Māori electoral population of the region

$gepr$ is the general electoral population of the region

nm is the proposed number of members of the regional council.

- (2) If the number of the Māori constituency members calculated under subclause (1) includes a fraction, the fraction must be disregarded unless it exceeds a half. If the fraction exceeds a half, the number of Māori constituency members must be the next whole number above the number that includes the fraction.
- (3) The number of members to be elected by the electors of 1 or more general constituencies is to be determined by subtracting from the proposed number of members of the regional coun-

cil the number of Māori constituency members, as calculated under subclauses (1) and (2).

- (4) Despite Part 1A and the provisions of this schedule, if the number of Māori constituency members, as determined in accordance with the method of calculation in this clause, is zero (because the number of Māori constituency members as so determined is a fraction of the whole number 1 that does not exceed one half),—
- (a) the region must not be divided into 1 or more Māori constituencies and 1 or more general constituencies:
 - (b) the provisions of clauses 3, 5, and 6 of this schedule must not be applied for the purposes of any determination under section 19I or section 19R.

Compare: 2001 No 1 (L) s 6

Schedule 1A clause 4(4): amended, on 28 June 2006, by section 5(2) of the Local Electoral Amendment Act 2006 (2006 No 25).

5 Relationship with other provisions

- (1) In exercising its powers and duties under sections 19H to 19U, and sections 19W to 19Y, a territorial authority or regional council or, as the case may require, the Commission must ensure that any proposal, revised proposal, or determination made under any of those sections is,—
- (a) in the case of a territorial authority, consistent with the calculations required by clause 2; and
 - (b) in the case of a regional council, consistent with the result of the calculations required by clause 4.
- (2) If it is proposed to alter the proposed number of members of a territorial authority or regional council at any time after that number is first determined in accordance with clause 1 or clause 3, the territorial authority or regional council or, as the case may require, the Commission must again make, in accordance with the method of calculation specified in clause 2 or the method of calculation specified in clause 4, as the case may require, the determinations required by clause 1 or clause 3.
- (3) Subclause (2) does not limit subclause (1).

Compare: 2001 No 1 (L) s 7

6 Supplementary provisions regarding wards, constituencies, and boundaries

In determining the number of wards and the boundaries of Māori wards, and the number of constituencies and the boundaries of Māori constituencies, a territorial authority or regional council or, as the case may require, the Commission must, in addition to satisfying the requirements of section 19T or section 19U,—

- (a) ensure, to the extent that is reasonably practicable and is consistent with the requirements of paragraph (b), that—
 - (i) the ratio of members to Māori electoral population in each Māori ward produces a variance of no more than plus or minus 10% (if 2 or more Māori wards for the district are proposed); and
 - (ii) the ratio of members to Māori electoral population in each Māori constituency produces a variance of no more than plus or minus 10% (if 2 or more Māori constituencies for the region are proposed):
- (b) have regard to—
 - (i) the boundaries of any existing Māori electoral district; and
 - (ii) communities of interest and tribal affiliations.

7 Population figures

- (1) The Government Statistician must, at the request of a territorial authority or regional council or, if appropriate, the Commission, supply the territorial authority or regional council or the Commission with a certificate—
 - (a) specifying the Māori electoral population for the district or region; and
 - (b) the general electoral population of the district or region.
- (2) The numbers included in the certificate must be derived from information contained in the most recent report of the Government Statistician to the Surveyor-General and to the other members of the Representation Commission made under section 35(6) of the Electoral Act 1993.

- (3) A certificate issued under subclause (1) is conclusive evidence of the information contained in that certificate.

Compare: 2001 No 1 (L) s 9

8 This schedule to be read with Local Government Act 1974 or Local Government Act 2002 and other provisions of this Act

- (1) This schedule is to be read in conjunction with the provisions of the Local Government Act 1974 or the Local Government Act 2002 and the other provisions of this Act, and the provisions of the Local Government Act 1974 or the Local Government Act 2002 and the other provisions of this Act and the provisions of any regulations made under either the Local Government Act 1974 or the Local Government Act 2002 or this Act apply accordingly and with any necessary modifications.
- (2) However, if there is any inconsistency between the provisions of this schedule and any provisions of the Local Government Act 1974 or the Local Government Act 2002 or of this Act or of any regulations made under the Local Government Act 1974 or the Local Government Act 2002 or this Act, this schedule prevails.

2 *Status of reprints*

Under section 16D of the Acts and Regulations Publication Act 1989, reprints are presumed to correctly state, as at the date of the reprint, the law enacted by the principal enactment and by the amendments to that enactment. This presumption applies even though editorial changes authorised by section 17C of the Acts and Regulations Publication Act 1989 have been made in the reprint.

This presumption may be rebutted by producing the official volumes of statutes or statutory regulations in which the principal enactment and its amendments are contained.

3 *How reprints are prepared*

A number of editorial conventions are followed in the preparation of reprints. For example, the enacting words are not included in Acts, and

provisions that are repealed or revoked are omitted. For a detailed list of the editorial conventions, see <http://www.pco.parliament.govt.nz/editorial-conventions/> or Part 8 of the *Tables of New Zealand Acts and Ordinances and Statutory Regulations and Deemed Regulations in Force*.

4 *Changes made under section 17C of the Acts and Regulations Publication Act 1989*

Section 17C of the Acts and Regulations Publication Act 1989 authorises the making of editorial changes in a reprint as set out in sections 17D and 17E of that Act so that, to the extent permitted, the format and style of the reprinted enactment is consistent with current legislative drafting practice. Changes that would alter the effect of the legislation are not permitted. A new format of legislation was introduced on 1 January 2000. Changes to legislative drafting style have also been made since 1997, and are ongoing. To the extent permitted by section 17C of the Acts and Regulations Publication Act 1989, all legislation reprinted after 1 January 2000 is in the new format for legislation and reflects current drafting practice at the time of the reprint.

In outline, the editorial changes made in reprints under the authority of section 17C of the Acts and Regulations Publication Act 1989 are set out below, and they have been applied, where relevant, in the preparation of this reprint:

- omission of unnecessary referential words (such as “of this section” and “of this Act”)
- typeface and type size (Times Roman, generally in 11.5 point)
- layout of provisions, including:
 - indentation
 - position of section headings (eg, the number and heading now appear above the section)
- format of definitions (eg, the defined term now appears in bold type, without quotation marks)
- format of dates (eg, a date formerly expressed as “the 1st day of January 1999” is now expressed as “1 January 1999”)

- position of the date of assent (it now appears on the front page of each Act)
- punctuation (eg, colons are not used after definitions)
- Parts numbered with roman numerals are replaced with arabic numerals, and all cross-references are changed accordingly
- case and appearance of letters and words, including:
 - format of headings (eg, headings where each word formerly appeared with an initial capital letter followed by small capital letters are amended so that the heading appears in bold, with only the first word (and any proper nouns) appearing with an initial capital letter)
 - small capital letters in section and subsection references are now capital letters
- schedules are renumbered (eg, Schedule 1 replaces First Schedule), and all cross-references are changed accordingly
- running heads (the information that appears at the top of each page)
- format of two-column schedules of consequential amendments, and schedules of repeals (eg, they are rearranged into alphabetical order, rather than chronological).
